

## "Java Programming"—Table of Contents

Intro .....	4
Objectives .....	4
Grading .....	5
Absence .....	6
Book recommendations .....	6
Set up .....	7
Exercises—"your first Java programs" .....	8
Adding comments to code .....	13
Semi-colons and braces .....	13
Datatypes .....	14
Primitive datatypes .....	14
Declaring a variable .....	14
Assigning values to variables .....	15
Data structures .....	15
Arrays—introduction .....	16
Classes .....	16
Copyright © 1998–2001 John E. Darrow. Do not copy without author's permission. javawriter@yahoo.com	1A

Exercise—choosing a datatype .....	17
Printing options .....	17
String concatenation .....	18
Escaped characters .....	18
Activity—strings and printing .....	19
Object-oriented programming .....	19
Member declarations you may find within a class declaration .....	20
Exercises—recognizing members .....	20
Where to put members of a class .....	21
Coding style .....	21
TextPad .....	24
Exercise—indentation .....	25
Class versus instance .....	25
Creating an instance of a class declaration .....	26
Class—declaraction versus usage .....	27
Methods .....	27
Inventing a method .....	27

Exercise—recognizing parts of methods . . . . .	28
Declaring a method . . . . .	28
Exercises—declaring methods . . . . .	29
About <code>main()</code> . . . . .	29
TextPad features . . . . .	30
Exercises—member access . . . . .	31
Debugging . . . . .	31
Casting . . . . .	31
Methods calling methods . . . . .	32
Exercise—creating a method . . . . .	32
Declaring a method and using a method . . . . .	33
Additional discussion of return . . . . .	37
Using a method—what to do with what it returns . . . . .	38
Exercises—declaring and using methods, part 1 . . . . .	39
Further design of class members . . . . .	39
Modifiers: <code>public</code> , <code>protected</code> and <code>private</code> —introduction . . . . .	39
Exercises—declaring and using methods, part 2 . . . . .	40
Copyright © 1998–2001 John E. Darrow. Do not copy without author's permission. javawriter@yahoo.com	2A

Declaring a variable . . . . .	41
Modifier: <code>static</code> . . . . .	41
Modifier: <code>final</code> . . . . .	42
Declaring a method (review) . . . . .	43
Declaring a constructor . . . . .	43
Recognizing members in a class declaration . . . . .	44
Scope . . . . .	44
Getter and setter methods . . . . .	45
Exercise—getters and setters . . . . .	46
Overloading . . . . .	47
Where to put <code>main()</code> . . . . .	47
Review . . . . .	48
Declaring a constructor . . . . .	49
Member declarations—a review . . . . .	50
Exercise—class members . . . . .	51
Exercises—constructors . . . . .	51
Arrays . . . . .	52
Copyright © 1998–2001 John E. Darrow. Do not copy without author's permission. javawriter@yahoo.com	2B

Exercises—arrays	56
Program logic	57
Operators: assignment, arithmetic and comparison	57
Branching—introduction	58
Branching: if	58
Branching: if-else	59
Branching: else if	60
Exercise—if and else if	60
Looping: while	61
Exercise—while	62
Looping: do-while	62
Looping: for	63
Breaking, continuing	64
Branching: the ternary operator	65
Branching: switch	65
Operators: &&    ^	66
Exercise—branching and looping	66

Online links to Java API and Tutorial	67
String class methods	67
Exercise—String methods	69
Reading args from a command line	70
Converting Strings to numbers	71
Exercises—arrays, reading command line args	71
Inheritance	72
Exercises—inheritance, part 1	74
Object	75
Exercise—inheritance, part 2	76
The "this" and "super" keywords	77
Modifiers: public, protected and private—inheritance	81
Exercise—inheritance, part 3	82
Interfaces	85
Exercises—interfaces	87
Modifier: abstract—for independent study	87

Package issues . . . . .	88
package . . . . .	88
import. . . . .	89
Modifiers: public, protected and private—packages. . . . .	89
CLASSPATH . . . . .	90
Exercise—packages, import and CLASSPATH . . . . .	91
Utility classes . . . . .	93
Checking for null. . . . .	97
Exercises—various utilities . . . . .	97
Exception Handling . . . . .	98
Exercise—exception handling. . . . .	99
Multi-threaded programming . . . . .	99
Exercise—threads . . . . .	102
Input/output streams. . . . .	103
Byte streams—everything, including text . . . . .	103
Character streams—text . . . . .	104
How to use the streams . . . . .	104

Initializing a stream . . . . .	106
More about ObjectInputStream and ObjectOutputStream . . . . .	107
Exercise—I/O . . . . .	108
Introduction to Java AWT . . . . .	110
Various classes . . . . .	110
Exercise—applet . . . . .	111
Basic applet structure. . . . .	111
Event model. . . . .	111
Exercise—event handling . . . . .	113
Debugging . . . . .	113
Projects. . . . .	115
